DETAILED ACTION

Allowance

1. This office action is in response to the Board decision rendered 9/11/2009.
2. Claims 1-29, 32-38, 41-43, 46, and 47 are allowed and renumbered 1-41.
3. The following is an examiner's statement of reasons for allowance:
4. The instant invention is directed to dynamically determining range constraints for a database table. The range constraints are determined based on the data already stored in the database. Based on the data, the range constraints are changed and set. The range constraints limit what data is permitted to be added to the database.
5. The closest prior art are as follows:
6. Bakuya et al. (US Patent 5,680,614) discloses range constraints for a database including at least one limit and ensuring that only data that lies within the range is allowed entry into the database. Bakuya at Fig. 6; col. 9, lines 32-40.
7. Zuzarte (US Patent Pub 2003/0084025) discloses selecting a column or generating a virtual column and performing a statistical analysis on the particular column regarding information such as high and low values. The statistical information is then used to create constraints that reflect the statistical characteristics of the particular column. Zuzarte at para. 0020, lines 6-12.
8. Though the closest prior art discloses elements very close to that of the invention, as found by the Board, the disclosure of the combination did not render the claims obvious. For at least these reasons, claims 1-29, 32-38, 41-43, 46, and 47 are allowed.

9. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
